

...connecting to the aftermarket

Seamless DAB Integration

Patent Pending No. 1100087.4

Connects2 have developed a full range of DAB interfaces covering 90% of all vehicles on the road in Europe. DAB stations can be selected from the vehicles steering wheel controls, allowing seamless DAB integration into your vehicle.

DAB functions are controllable from the steering wheel buttons

DAB station name transmitted via RDS text

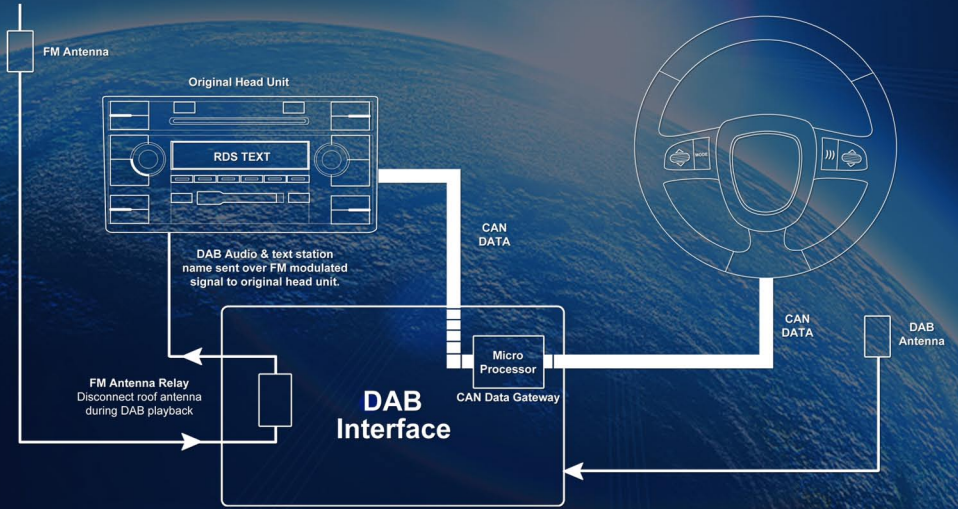

Features

- Compatible with any FM original radio
- Compatible with any aftermarket radio
- Listen to 100's of new radio stations
- Easy installation
- Hide away design - no trailing wires
- Use existing car controls and displays
- Voice prompt menu system, for added safety
- DAB / DAB+ / DMB supported

How it works

DAB *DAB digital radio*

Application Guide
